Swim Lesson Pay- Follow up from the budget workshop in May concerning how the lifeguards were being paid. Previous years the lifeguards would take 75% of the total of swim lessons and divide that amount between those who taught. No hours were tracked and were not added to their afternoon lifeguard hours. This had two potential issues. If the lifeguard is a minor, then they are only allowed to work up to 40 hours. Second, according to MCA 39-3-405 "An employer may not employ any employee for a workweek longer than 40 hours unless the employee receives compensation for employment in excess of 40 hours in a workweek at a rate of not less than 1 ½ times the hourly wage rate at which the employee is employed." If lesson hours are not tracked, it then becomes possible for lifeguards to work over 40 hours without getting paid time and a half. Carl Donaldson made a motion to pay the two or three lifeguards that do the swim lessons \$20 an hour while doing lessons. Mark Nelson seconded the motion. No objection. MOTION CARRIED.

Currently our annual workers compensation is \$761.08, this would add an additional \$1,929.50/year for our current roster of 17 firefighters. The following are some of the criteria for the additional coverage:
